

NEVADA TRUCKER E-MAIL BULLETIN

6/17/10

Subject: Welcome to the Nevada Trucker E-mail Bulletin Service

Thank you for joining us. The Nevada Department of Transportation, Department of Motor Vehicles (Motor Carrier Division) and the Department of Public Safety (NHP Commercial Enforcement) offer this service to encourage and improve communications with all the trucking communities that use our Nevada highways.

Bulletins will include periodic updates on state laws, rules and meetings that affect various truck operations, specifically commercial vehicles, oversized and overweight vehicles, permitting requirements, and standing route restrictions. Only important highlights will be published when required. These bulletins are not intended to replace industry newsletters or NDOT's ClearPath 511 Road Alerts. Recently released bulletins will be stored on the sign-in page for later viewing.

Please encourage others to sign-up now for both the Nevada Trucker E-mail Bulletin service and the ClearPath 511 Road Alert service. And take advantage of all our web services by familiarizing yourself with the relevant state web sites shown below.

We're here to serve you, your business, and the citizens of Nevada by providing safe, efficient and effective roads for truck and automobile movement, so please call or e-mail us if you have any recommendations or need any further assistance. Do not reply to this Trucker E-mail Bulletin address; see contact info below.

Have a Safe and Productive Day on Nevada's Highways!
Jeff Richter, Nevada Trucker E-mail Bulletin Editor
