# Kyle Canyon Road Improvement Project

The Central Federal Land Highway (CFLH) in cooperation with the Humbolt-Toiyabe National Forest and NDOT will construct roadway improvement project along Kyle Canyon Rd. (SR 157) from the junction of Deer Canyon Rd. (SR 158) to the junction with US 95.

# Kyle Canyon Road Improvement Project

- The Project consists of:
  - Addition of 4' shoulders (bike lanes) in both directions
  - Pavement reconstruction
  - Safety improvements
  - Two roundabouts

# Kyle Canyon Road Improvement Project

- Interlocal Agreement between NDOT and CFLH for the project:
  - Original Agreement in 2012, amended in May 2013 included \$2.0 million in State funds
  - Proposing adding by amendment \$5.5 million in State funds for pavement reconstruction and additional pavement surface treatments.

# SR 157 Overview

# Full Depth Rehabilitation

**Adjacent:** Alligator cracking at Mile Marker 6 on SR 157

**Below:** Full-depth cracking at Mile Marker 13.

# 2" Mill and Overlay

**Above:** Surface cracking at Mile Marker 16 on SR 157

**Adjacent:** Surface cracking at Mile Marker 18.

# Kyle Canyon Road Improvement Project

- \$5.5 million in State funding is available
- Pavement condition has deteriorated to the point that the originally proposed rehabilitation strategy is not adequate
- SR 157 is a high priority in the 3R program due to pavement condition. NDOT would need to address this pavement in a future contract. It is more efficient to perform the repairs at this time. Mobilization and Traffic Control are already in place.
- NDOT participated in Change Order process and this is the most effective way to fix this pavement

# Kyle Canyon Road Improvement Project

Recommendation To The Board:

- Approve Amendment 2 to Agreement P244-12-802, additional scope of work and the additional funding for the project.
